The Massachusetts Chapter of the American Academy of Pediatrics invites all members to engage in legislative advocacy activities pertaining to child health in the Commonwealth.

The process of evaluating legislative items to decide whether the Chapter will support, oppose, or remain neutral (abstain) follows a standard procedure in which members may participate. Ultimately, the Chapter’s stand should reflect the mission of the Chapter.

The Massachusetts Chapter of the American Academy of Pediatrics is committed to the attainment of optimal physical, mental and social health for all infants, children, adolescents, and young adults. To this end, the members of the Academy dedicate their efforts and resources.
